Tracker 2

Tracker™ is a fully integrated and automated application for tracking action items from conception to completion. Tracker is designed to simplify the workflow of tracking any type of action item that needs to be managed such as PHA recommendations PHAWorks and audit findings. Tracker provides exactly what many companies are lacking - a reliable, consistent, automated, and integrated tool for tracking and managing action items.

KEY BENEFITS

Import data from PHAWorks and CSV files.

Automate action item tracking.

Scheduled automated tasks such as reports and emails.

Track action items from multiple sources in one tool.

Create custom tracking forms.

Send email reminders automatically.

Escalate email reminders to three different levels.

Generate custom reports.

Archive action items for future reference.

Search data using the basic or advanced search toolbar.

Create custom views of your data (filters, sort, group, columns, fields)

Includes full email capability.

PHAWorks 5®

PHAWorks is a specialized tool for conducting Process Hazard Analysis (PHA) studies, such as HAZOP and What If studies. The software is designed to allow you to start conducting studies straight out of the box, leading you through each step of data entry. Within minutes, you can start documenting your PHA studies more quickly and efficiently while keeping the team focused on the task at hand.

LOPAWorks 3®

LOPAWorks allows users to conduct Layers of Protection Analysis (LOPA) for hazard scenarios. The software calculates scenario risks and compares them with risk tolerance criteria to determine what, if any, risk reduction is needed. Scenarios may be associated with hazardous events to facilitate compliance with the IEC 61511 / ISA 84 standards for Safety Instrumented Systems (SISs). Dominant contributors to scenario risk may be easily identified using the software. Overall facility risk estimates may also be determined to allow comparison with facility risk tolerance criteria.

Specialists in Safety, Security and Risk

Consulting

Primatech provides industry-leading services to help companies meet their PSM and risk management objectives. Primatech utilizes expert consultants, innovative approaches, and unsurpassed standards for project work.

Training

Primatech is a leading provider of process safety training to companies in the U.S. and around the world, Primatech offers over 35 courses for open enrollment and private, on-site delivery. Primatech courses are widely known for being the most comprehensive available. Courses feature hands-on workshops, detailed resource materials, and expert instructors. Primatech is the recommended process safety training provider for many organizations.

Certification

Primatech Certification Services (PCS), founded by Primatech Inc. as an independent organization, provides recognition to process safety and risk management professionals who meet defined standards in specific technical areas. Currently, professionals can seek certification in process hazards analysis, layers of protection analysis and process safety auditing.

Software

Primatech's software products are proven tools to support your process safety, security and risk management programs. Currently, Primatech offers the software packages LOPAWorks®, PHAWorks®, and Tracker™.
